THE RESIDENCE OF THE PROPERTY OF THE PARTY OF THE PROPERTY OF THE PARTY OF THE PART

HATTAN CONTRACTOR OF THE PARTY OF THE PARTY

	1	marked Exhibits ED-51 and 52.
	2	THE SPECIAL MASTER: All right.
	3	THE WITNESS: Have these (indicating) been
	4	copied already, Mr. Merrill?
	5	MR. MERRILL: No, they have not.
	6	THE SPECIAL MASTER: I would still like an
5	7	answer to yesterday's question on Rocky Boy. Did
	8	anybody find out what Tribe that is?
	9	MR. ROGERS: It's Chippewa Cree, isn't it?
G and	10	THE SPECIAL MASTER: Okay, thank you.
فالمناح	11	MR. ROGERS: I can throw no light on where
فصيران	12	the name came from, however.
المدادة	13	THE SPECIAL MASTER: Fifty-two I have, Mr.
	14	Merrill. Did you bring around 51 also?
-	15	MR. MERRILL: Yes, I did, Your Honor. It's that
الصورية الصورية الصورية	16	one-page chart.
	17	THE SPECIAL MASTER: All right. Thank you.
4-10	18	Q (By Mr. Merrill) Mr. Dornbusch, I direct your
400	19	attention to Table 18 on Page 39 of Exhibit C-278.
4-13	20	A All right.
	21	Q All set?
9-3	22	A Uh-huh.
9 -3	23	Q Would you please, beginning with returns, describe
0 -3	24	to the Court how you determined the per acre
6-3	25	dornbusch-cross-merrill
6-3 		Frontier Reporting Service

	1	returns shown on Pages 39, 40 and 41?
ان ان	2	A Yes. These are the average returns per acre for
	3	each of the units well, for each of the yes,
	4	for each of the units shown in the left column.
	5	It is a weighted average of the returns for those
	6	units.
	7	Q How did you determine a weighted average for the
	8	lands within each of the drainages or projects in
	9	the left-hand column?
بان بان	10	A By analyzing each of the fields within that unit
640	11	that would be irrigated.
06	12	Q Do I understand you to say you did a field-by-field
Charles Charles Charles	13	analysis of these lands?
ورين ال	14	A That's right.
ودنا	15	MR. ECHOHAWK: Your Honor, just so the record
Gers.	16	is correct, the items listed down the left-hand
Ons.	17	column are drainages, not the units.
e-e	18	THE SPECIAL MASTER: The description I find
4-10	19	on Table 18, Page 39 gives them by project rather
4-ti	20	than drainage basins.
	21	MR. ECHOHAWK: The first ones are the projects,
0	22	the following two pages list the drainages.
	23	THE SPECIAL MASTER: They do, indeed, they are
	24	listed by basin. I see that and I'm happy for the
3	24 25	dornbusch-cross-merrill
	40

	1	notation. Thank you.
المين المستوسط المستوسط	2	Q (By Mr. Merrill) Mr. Dornbusch, using the Ray Unit
	3	of the Little Wind River as an example, would you
المرشي	4	describe to the Court how you compiled the return
المعالمة	5	information for the various fields within that unit
	6	into an average per acre return shown on Table 18?
	7	A Well, to start backwards to telllyou how we got the
U Property	8	returns, as I said, the weighted average returns,
	9	they are the returns weighted by the size of each of
ال المستونية المعمودية	10	the fields. The returns for each field are
ويسين	11	calculated as presented in my report on Type VII
Birth B.	12	
فينين		arable lånds.

.		
The section of the se	1	as presented in the table.
Contract Con	2	Q Is the benefit cost ratio shown in the right-hand
و الم	3	column of Table 18 simply the returns divided by
	4	the costs shown in the second column?
المستى المستى المستى	5	A That's right; it is.
التي معنى التي معنى	6	Q Mr. Dornbusch, I note some remarkably high benefit-
ت شق	7	cost ratios. On Page 40 there is one that exceeds
لصنى		
ريستي	8	ten. On Page 41 there is a benefit-cost ratio of
	9	greater than 15.
Carte !	10	A Yes.
Circuit	11	Q In evaluating the feasibility of these lands, and
Contra	12	particularly those which you determined to have
بيوم ن فيليم ن	13	such a high benefit-cost ratio, did you make any
مينوس ا	14	investigation as to why these lands are not being
Barber .	15	irrigated today?
Bord	16	MR. ECHOHAWK: Objection, Your Honor, Irrelevant.
Orace Orace		
3-43 3-43	17	THE SPECIAL MASTER: Oh, that's a good question,
	18	and it's a good objection.
	19	That reminds me of the fellow that said that
بتري	20	some of his friends were for the question and some
	21	were for the objection, and he was for his friends.
	22	I have just got to have the answer to that
الهرسني الهرسني	23	question. That's been in my mind several times, and
المحرين المحرين	24	I have got to overrule the objection at the risk of
- Stanfe	25	dornbusch-cross-merrill
	4- 1 J	• • • • • • • • • • • • • • • • • • •

	· · · · · · · · · · · · · · · · · · ·
¥ 1	some possible error.
હ 2	If this Witness knows, he may answer. If he
5 3	deesn't, he doesn't.
d 4	THE WITNESS: I do not know.
1 5	THE SPECIAL MASTER: I suspect that is going
J 6	to get asked several more times before the trial
J 7	is over.
រី ន	MR. MERRILL: I expect we are going to get the
J J	same answer, Your Honor.
-4 10	THE SPECIAL MASTER: Not with you working, Mr.
선 11·	Merrill, we won't.
4 12	We will ask if necessary, I'll have to do
13	it on my own motion we!ll make some inquiries
4 14	as to whether it's policy if they have the right
15	not to irrigatė certain lands. That's policy, and
بر. 16	there may be some reasons, but we have a right to
4 17	inquire into them.
4 18	Q (By Mr. Merrill) Mr. Dornbusch, do you have the
- 4	number of acres in each of the units and drainages
- 3 20	shown in Table 18 which receive full service and
- 3	the number of acres that receive partial service
22	irrigation so that we can know the figures by which
23	you weighted your costs and benefits?
24	A Well, I haven't calculated that directly, no, but
25	dornbusch-cross-merrill
	Frontier Reporting Service
	3 3 4 5 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24

	14a-2	
-	14a-2 1 2 3,	I thought.
	2	MR. ECHOHAWK: The fact that he relies upon a paper
- Partie - 19		
	3 .	doing his work is one thing. The question is whether or
والمستوسدة	4	not the witness must refer to it during his answer to
السينتسنين المستحد	5	remember.
The same of the sa	6	THE SPECIAL MASTER: I would love to sustain the
0	7	objection.
ق بشری ویسیستن	8	MR. ROGERS: I would like to add that unless he
	9	refers to it while he is on the witness stand under oath,
ويستنق	10	it need not be shown.
فيسين	11	MR. ECHOHAWK: I believe it's rule 803.
ميسيسين هيسيسين لاميرن	12	MR. MERRILL: It can't possibly be 803.
المعاشدات		MR. ECHOHAWK: 603.
الم المسائل	14	THE SPECIAL MASTER: Let's take a minute and have
گریشسین هیشسینه هیشسینی	15	a look at it.
الاعدادي الاعدادي	16	The reason we have been most liberal on that is
ويسين	17	that I assumed you would have gotten that in depositions.
فاستن	18	MR. CLEAR: The State was in charge of scheduling
التسديد التسديد	19	the depositions.
الله الله الله الله الله الله الله الله	20	THE SPECIAL MASTER: I can't win this afternoon.
	21	Okay.
	22	MR. MERRILL: Well, Your Honor, I'll state for the
چسوبي چسوبي	23	record
المرابع	24	THE SPECIAL MASTER: No problem. Let's see what
المستري	25	the ruling is on it.
		Frontier Reporting Service
إستثراء	I	409 West 24th Street

How many pages is the document that Mr. Merrill wants to see?

THE WITNESS: Do I have to refer to it?

MR. ROGERS: I think he will have to refer to it to tell you. I think that's the problem. If he may look at it under a protective order --

THE SPECIAL MASTER: Off the record.

(Off the record discussion.

THE SPECIAL MASTER: On the record, please.

Mr. Echohawk?

MR. ECHOHAWK: Still searching, Your Honor.

THE SPECIAL MASTER: Let me know when you get it.

MR. MERRILL: Why don't you try 612?

MR. ECHOHAWK: 612, Your Honor.

THE SPECIAL MASTER: 612?

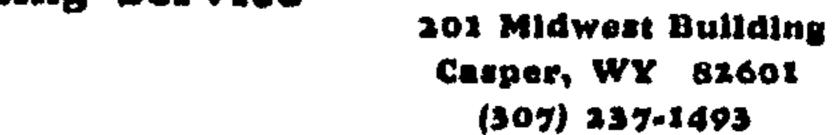

MR. ECHOHAWK: Yes, Your Honor. "...if a witness uses a writing to refresh his memory ... either ... while testifying ... an adverse party is entitled to have the writing produced at the hearing ..."

The witness hasn't referred to it as yet.

THE SPECIAL MASTER: I think I fractured that rule 25 times, haven't I?

MR. MERRILL: I can force the witness with one question and get by all of this.

THE SPECIAL MASTER: I suspect you can, and I will

5-40		·n · · · · · · · · · · · · · · · · · ·
بيدسي	1	overrule that objection, but we will be more careful about
Carried Control of the Control of th	2	that on that particular point.
	3	MR. ECHOHAWK: I just hope that we keep this in
	4	mind when Mr. Merrill's witnesses take the stand.
Service .	5	THE SPECIAL MASTER: We will try to keep that in
5	6	mind and be fair about it.
5	7	You may answer.
5	8	MR. MERRILL: The last question, I believe, Your
5	9	Honor, was may I see the document, and that's when all
وسرا	10	the objections started roaring in.
The second second	11	THE SPECIAL MASTER: You may answer. May he see
فيدين	12	the document? I believe he has a right to see the docu-
ودرو	13	ment.
وعدون	14	THE WITNESS: If you are directing me to show the
فيسيو	15	document
وعدين	16	THE SPECIAL MASTER: I'm directing you to show it
3	17	unless it shows proprietary material, workpapers of a
	18	nature that would be to a disadvantage competitively
	19	of your firm.
3	20	Now, if you raise that objection to it, we will do
3	21	otherwise in our ruling, or reconsider the ruling.
وسيس	22	MR. MERRILL: Your Honor, I believe the record should
ويسينسي	23	reflect the appearance of Mr. George Radosevich who
0-1-0	24	just walked into the room.
0	25	THE WITNESS: Just so I'm clear of what you are
-		Frontier Reporting Service

14		<u></u>
4	1	requesting, could you ask me again what it is you are
-	2	seeking?
	3	MR. MERRILL: Yes.
	4	Q (By Mr. Merrill) I would like to see a listing of each
-	}	
0	5	of the Type VII fields that has an indication on it
6	6	whether each particular field received full or partial
	7	service irrigation.
Sm. 3	8	And while we are at it, I'll add the second request,
3	9	and that is whether the fields that are served by sprinkler
ب رانجستون	. 10	irrigation are served by a hand-move or side-roll. If
	; 11	that happens to be reflected on the same paper, perhaps
ورس	12	we can saversomertimetime.
	13	A I don't have a listing that shows that.
A PER	14	THE SPECIAL MASTER: Of the latter part? But do
لعريه	15	you have the former as to which fields were designated
التقسيم التقسيم	16	as water-short in arriving at your table 18 computations?
4	17	THE WITNESS: I have worksheets that indicate on
4	18	the worksheets for a particular field whether it received
	19	full or partial water.
	20	MR. MERRILL: That would be fine, Your Honor.
	21	Q (By Mr. Merrill) May I see those worksheets, please?
	22	(The witness handed Mr. Merrill
	23	(the document.

_		Frontier Reporting Service

I notice and should note THE SPECIAL MASTER: in the record that the swathe of documents handed by the Witness to Mr. Merrill constitutes what looks like 100 and more pages of legalized tabulations and work papers. MR. MERRILL: That's correct, Your Honor. 6 THE SPECIAL MASTER: Are we sure this is not a duplication of some of the material that Tom Stetson produced for Mr. White? 9 10 MR. MERRILL: It is, indeed, Your Honor. It is 11 the same material Mr. Stetson produced last Wednesday 12 in response to one of my questions on cross-examination. 13 I didn't know until Mr. Dornbusch produced the 14 document that it was the same one. I do not intend -15 to mark it as an exhibit, but I will ask him to identify the document so we have a good record on it. 16 4-3 THE SPECIAL MASTER: Right. Thank you very much, 17 4 Mr. Merrill. Does anybody remember what the number 18 4 was we gave for that when it was admitted? 19 4-3 MR. ECHOHAWK: I don't remember. 0-7 20 THE WITNESS: Fifty-six, perhaps? 21برسين برسين (By Mr. Merrill) Mr. Dornbusch, in response to my Q 22 request you handed me a stack of legal sheets, looks 23 ببسين like approximately 100 or so pages that say on the باسري 24 بيسين 25 dornbusch-cross-merrill

	1	top of each one "Type VII lands" and have an aerial
بمناع	2	photograph number and then have various columns
5	3	indicating field numbers, acreages, soil classes,
5	4	and then the on-farm costs and system costs
المستران الم	5	associated with each field; is that correct?
الماري	6	A It has the investment cost and the annual costs.
5	7	Q Did you receive that document from Stetson Engineers?
5	8	A Yes, we did.
5	9	Q In determining whether each field was served by full
ومرزي	10	or partial surface irrigation, did you rely on the
	11	, notations in the upper right-hand corner of each
فيست	12	sheet concerning whether a field is water short?
المستعن	13	A Yes, we did.
الميدسين.	14	Q So if it said water short and "Yes" was circled,
<u></u>	15	you assumed that field would only get partial
المعدي	16	surface irrigation, is that correct?
الاعدالة الاعدادة	17	A That's right.
व~ च~⇒	18	Q That's all the questions I have about that stack
	19	of documents, if you want to put them away.
وتسين	20	Mr. Dornbusch, would you please take out your

	1	lower, isn't it true that the benefit-cost ratio
	الميم الميما	as shown on Table 5 of Exhibit ED-14 will also be
	3	lower?
است	الم	
	4	A If those were the correct ones to be used in this case.
	5	THE SPECIAL MASTER: Well, as a matter of fact,
	6	though, aren't all your benefit cost ratios on Table 5
	7	of ED-14 below unity?
استن المستحد	8	THE WITNESS: On Table
	9	THE SPECIAL MASTER: Five, the last page.
	10	THE WITNESS: Yes.
	11	THE SPECIAL MASTER: Of your Exhibit ED-14, are
السناق	12	they not all below unity?
بخش ی دسی		THE WITNESS: They are.
	•	THE SPECIAL MASTER: So if they would be less
الشراق المشراق المشراق المشراق	15	than that, there would be no difference in their
6 -5	16	value in these proceedings, would there?
3 -22	المان المان المان	THE WITNESS: That's right.
0	; 上述 18	Q (By Mr. Merrill) Mr. Dornbusch, how did you arrive
•	<u>ئىسن</u>	at the conversion factors you used to convert annual
_		
•	کی نی 20	benefits to a present value of benefits?
_	21 	A We used the discount rate that should be applied if
شري سري	선 건	that stream of benefits occurs at the midpoint of
	23	the year. And what you have here is a difficulty
من	-4 24	in aligning all of your costs and returns to exactly
•	25	dornbusch-cross-merrill
		Frontier Reporting Service
	1 .	Fruitter Reburine Service

expressed in these tables have been calculated as of a point in time of September 1. The times zero that we have used to calculate all of the returns and costs as a times zero is a March 1 date. So what you have is a stream of benefits that occur at the midpoint of each year, and what we are doing is discounting that stream of benefits at the appropriate discount rate at the midpoint of the year. The costs are incurred and converted to a zero point in time as of March 1, and you have to compare the benefits to the cost as of that time.

THE WITNESS: Okay.

THE SPECIAL MASTER: So it's seven and one-eighth. What is a net return for North Crowheart at \$1,986.00 per acre per year? It becomes an additional \$1700.00 if you use the four percent factor. How can the net returns on North Crowheart be worth \$3600.00 under a four percent computation and only worth \$1,986.00 an acre under a seven and one-eighth percent calculation?

THE WITNESS: The effect is simply this: As you increase the rate that you use to discount a future stream of benefits back to the present value, the higher the rate, the more it weights the early years relative to the later years.

In other words, the later years become much less important and, in fact, the stream of benefits is considerably lower as a result of that.

You can see it if there was a zero discount rate, you would just add up the stream of benefits. It would equal the sum total of the hundred-year benefits, and as the discount rate moves up, the effect of bringing back the future benefits to the present is less and less until, if you had infinite rate, you'd only account for the first year benefits.

THE SPECIAL MASTER: And is that explanation also applicable to the system costs difference between 2474 --

THE WITNESS: It is exactly.

THE SPECIAL MASTER: -- and four percent as to \$2,094 at seven and an eighth?

THE WITNESS: That's really the reason you have to use the same benefit. It's to discount the future stream of benefits and costs using the same discount rate, and the higher the rate, the less it benefits the future benefits.

THE SPECIAL MASTER: I thank you very much for that.
Thank you, Mr. Merrill.

- (By Mr. Merrill) Mr. Dornbusch, in explaining the distinctions between the conversion factors you used and those shown in the WRC Handbook --
- A. Yes.
- Q -- I didn't understand your explanation about timing of costs and benefits.

Are you saying that the timing of costs and benefits assumed in your analysis are different from those suggested by the Water Resources Council in using these conversion factors?

A. Oh, no. The timing of our costs and benefits is exactly in conformance with the WRC and everybody else that does benefit-cost analysis, and the principle is you must compare those benefits and costs as of the same point dornbusch - cross - merrill

in time, okay?

The way it was done is simply this: When we set up our analysis of the benefits, we were looking at crops that were being cultivated and irrigated and harvested, okay.

In all of our crop budgets, you will notice that we have not moved in time the harvest costs. We have moved in time all of the costs that occurred prior to harvest to the harvest date which, just for working purposes, is assumed at the point of September 1, and all of the returns, all of the returns that we get from the crops and all of the costs that are incurred in the farm budget, come at that September 1 point.

Now, if we were to use a September 1 zero point, okay, and if we were to weight an entire year for the next returns, it would be correct to use the discount rates that you showed me in the WRC publication.

The zero point, however, was March 1. We obtained our benefits and we incurred the crop costs, moved to time zero September 1.

The appropriate rate to discount that stream of benefits, that's six months out from the time zero period is precisely the rate that I have used here, and to ease your burden in conceptualizing it, you can simply see that dornbusch - cross - merrill

Frontier Reporting Service

409 West 24th Street Cheyenne, WY 82001 (307) 635-8280

0-1-4

if you were to take the discount rate that should be applied, assuming the stream came exactly at the end of that period, a full year later, okay, the difference between that discount rate and a stream of benefits that had the benefits starting right at the beginning point in the period — in other words, if you have a stream of a hundred year benefits, one stream the benefits start a year later, the other stream the benefits start right at the zero point — we are midway in between, so the discount rate is in between that infinite stream using the first payment in the year zero and the first payment in year end, at the end of year one, and we have simply used exactly the proper discount rate for discounting that stream.

- But you did not use the discount rate that the Water

 Resources Council suggested in their guidelines for the

 conversion factor, did you?
- A. No, it would be clearly wrong in our case. You would have incurred benefits six months earlier than the benefits —— than the timing of the benefits assumed in the WRC discount rate, and we clearly —— if we have the benefit six months earlier than the benefits for that rate, clearly the proper rate to use is the one that recognizes that fact and not that rate in WRC. (indicating).

MR. MERRILL: Your Honor, could I have just a moment dornbusch - cross - merrill

THE SPECIAL MASTER: We will come to order, please. Take what time you need, Mr. Merrill.

MR. MERRILL: Thank you, Your Honor. I'm still trying to get straightened out here because they don't go in order.

(Brief pause.

MR. ROGERS: Your Honor, while we are waiting, where will the hearing be held the week of June 2nd, or do we know that yet?

of the man who usually works here, and he is gone. I am certain that week of hearing will be here in Room 302.

If not, it will be directly downstairs because we have used that room. That is the week -- off the record, please.

(Off the record discussion.

MR. ECHOHAWK: Your Honor, that raises one point I forgot to bring up earlier. Earlier you had requested briefs regarding the State rights and proof of irrigable acreage. You mentioned that you would like those briefs due at the end of May, which I think would be next Friday. I was wondering whether or not we could extend that three days and have those due on the day we come back to trial on the second?

THE SPECIAL MASTER: Yes, of course. So ordered.

MR. ECHOHAWK: Thank you.

1	Ò.	(By Mr. Merrill) Isn't it true you cited this document
2		in your memorandum concerning rate, Exhibit C-278?
3	A.	Yes, I did cite this document, Pages 4 and 5 and 15, I
4		believe.
5	Ũ.	I direct your attention to the first full paragraph on
6		Page 11 under, "Concepts of the Interest Rate", and
7		ask you to read the first sentence aloud.
8	•	MR. ECHOHAWK: Objection, Your Honor. The document
9		speaks for itself.
10	<u> </u> 	THE SPECIAL MASTER: This time I'm going to accede
11		to it.
12		THE WITNESS: It says, "There are different theories
13		regarding the appropriate discount rate for use in water
14		resource planning."
15	Č.	(By Mr. Merrill) Do you agree with that statement?
16	A.	I think that is true, that there are different approaches,
17		and you might call them theories, but I think on the basic
18		principles most of the economists are in agreement, and
19		I will be specific: We cited these two sources by Howe,
20		and we cite the source oh, the one I'm holding now,
21		Options for the Discount Rate, and the first principle to
22		start with is which rate to use, a nominal or a real rate.
23		Just to try to make my terms clear once again, the nominal
24		rate is the rate of interest which is fully inflated, has
24 25	dor	nbusch - cross - merrill
	II.	

full inflation in it; the real rate is the rate if you remove that inflation. Now, from that --5 10 11 13 14 15 16 18 19 20 21 22 23 24 25 dornbusch - cross - merrill Frontier Reporting Service 409 West 24th Street

25

THE SPECIAL MASTER: Aren't you sure that's not just exactly the other way around?

THE WITNESS: I beg your pardon?

THE SPECIAL MASTER: Aren't you sure that's not just exactly the other way around?

THE WITNESS: Did I misstate it?

THE SPECIAL MASTER: You may not have. The real rate I thought was the rate you paid that includes inflation or everything else cranked into it, and that's the rate you pay. The nominal rate may be somewhat less than that, less inflation.

THE WITNESS: Forgive me, Your Honor, but I think it might -- that might be true to certain people's definitions, unfortunately.

THE SPECIAL MASTER: It's the economist -THE WITNESS: The economists have not chosen
those terms. They have chosen the nominal rate as
the fully inflated rate and the real rate as the net

Now, Howe and this document are in complete agreement about the fact that if you do a benefit-cost analysis that projects costs and returns into the future, with inflation, including inflation, you should use the nominal rate. That's the fully inflated dornbusch-cross-merrill

Frontier Reporting Service

409 West 24th Street Cheyenne, WY 82001 (307) 635-8280

rate of inflation.

rate.

If you were to use an analysis, benefit-cost analysis, which discounts benefits and costs back to the present but assumes no inflation into the future, you should then use the real rate, which is also net of inflation, and I believe that both Howe and the publication by the Water Resources Council concur in that, and I refer you to Pages 4 and 5 and to Pages 15, and if you wish, I could read the excerpts from those pages which state very clearly just what I've stated now.

- Q (By Mr. Merrill) Why don't you go ahead and read those excerpts?
- A. Okay. I'm reading now from Page 4, U.S. Water

 Resources Council, Options for Discount Rate, ED-21:

"The first characteristic of the discount rate is that it is a 'real' rate. The Principles and Standards require an economic evaluation not a financial evaluation of projects. An economic evaluation is the comparison of the 'real' benefits and costs of a project. That is, the economic benefits in terms of goods and services received are compared to the economic costs in terms of goods and services required to produce the benefits. This is done by measuring the

benefits and costs of projects in constant dollars, e.g., dornsubsh - cross - merrill

in the general price level) are excluded from the estimates of project benefits and costs, each dollar of costs or benefits represents the same purchasing power regardless of when it occurs. Similarly, the discount rate used to express future benefits or costs as present values should be a real discount (interest) rate, that is, a discount rate in terms of goods and services as opposed to money. For this reason, observed market rates of interest — that is, nominal rates of interest — are not directly applicable to water resource projects."

And on Page 15 it says: "It must be recognized that one inherent difficulty in the current approach is that the WRC discount rate, which should be a real rate, is set by a nominal (market) rate."

Just to summarize, Ithink they have laid out the argument just as I have said, and probably said it much clearer and more succinctly, but the idea is that you must use a nominal rate if you project costs and returns without inflation.

Okay. Howe does the same thing.

Mr. Dornbusch, I think you said nominal rate, and Q my bet is you meant real rate; is that correct? I think you said you must use a nominal rate, and I don't want your testimony to be in the record the way you didn't intend.

Α If I said that, I didn't intend it.

> THE SPECIAL MASTER: I garbled that up enough, so I'm glad you called attention to that.

I would like to call attention to one thing that is timely. The documents that we referred to as documents are dated 1975, in the case of 21 on the Water Resources Council. The National Research Institute document was 1970 out of Washington. The Primer done by the Resource Council, Resources for the Future, Inc.,

And a 1970 economic statement and a 1974 economic statement, in my limited abilities, are inapplicable to a measure in 1981 of whether something is in this case feasible or not in the real world of 1982 and 1983.

THE WITNESS: That may be true in terms of trying to determine what the nominal rate is for now.

However, I think that some economic theories, and in this case the principles set out, are rather

timeless and that just because somebody has a correct idea five years ago doesn't mean that it's, to my mind, any less correct today.

THE SPECIAL MASTER: You feel that the explosion in energy costs caused by the Yom Kippur War of 1973 and the problem of crude at that time and everything that has followed since has not caused — is not cause to have these economic theories fall in disrepute?

THE WITNESS: In fact, I think that's precisely the point. You see, in talking with other economists and in dealing with this issue, up until the late '60s nobody really had to worry too much about inflation. We didn't have very much of it.

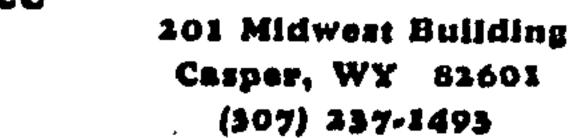

And whether you used the nominal rate or the real rate, they were so close that it didn't make a whole lot of difference, and nobody worried about it.

It's interesting that when I was in Brazil they had inflation like you can't believe. They had a long history of very high inflation, and I was down there working on a project and was totally caught by surprise in having to deal with that inflation rate.

dornbusch-cross-merrill

;

Frontier Reporting Service

And the economists that I was dealing with understood very well the rate -- just to give you an example of how it occurred, if you were to get a parking ticket, they would not tell you that the cost of that ticket was \$15. They would put on the ticket, "The cost of this ticket is" so many times an index, because they couldn't keep up with inflation, that the inflation was going up so high that they had to index it.

THE SPECIAL MASTER: We are doing that with our postage stamps. That's exactly right. We buy a B stamp now. It's 18 cents.

THE WITNESS: So to go back to your point, when inflation started to grow rampant, we were caught by surprise, and we had to focus on this issue, and worry about whether we should use the nominal or the real rate, and it's relatively recently that the thinking has come together, and as I go through my discussions, I think you'll see that the thinking has really solidified and focused directly on the fact that the principle of which rate you use is, I think, clearly understood and accepted, and even where the real rate falls is becoming clearer and clearer to us, and I can get to that.

dornbusch-cross-merrill

Q.

There are economists that would argue and I would agree with this far, and that is if you have a social betterment in mind, if you have some long-range social objectives in mind such as an investment for the future and what you are very concerned about is the preservation or a value that should be appreciated at some future time, what these theorists have done in order to do that is hypothesize that the discount rate you should use should be lower to increase the values in the future.

I have not chosen to do this. I'm adhering to what I think is the strict understanding of what cost of capital you should use. And I think that for the most part you may get the social theorists thinking about one discount theory, but I think the economists who would look at this project would be fairly together in their judgment that you should use an opportunity cost of capital which I have used.

There is some merit to the social benefit portion.

That would only increase the benefits, but I think I have been conservative in using the opportunity cost of capital. I have used a higher rate.

Isn't it true that the Exhibit ED-21, which you cite in your own memorandum, was written in the context of discussing choices for the discount rate between 3 and 10 percent?

dornbusch - cross - merrill

many per group of the property of the state of the state

THE WITNESS: Yes.

THE SPECIAL MASTER: A few years ago the difference between a private sector financing of a project, public, quasi-public or private and public financing of that project was something between six and eight percent, that is it might cost you 12 percent on the private money markets of New York or the world, and if it were federally guaranteed loans, then it would usually be six percent or so or on tax benefits. This is a six to eight percent spread there. Is that a factor you included in arriving at a four percent vis a vis a seven and a half?

A I don't know to what you are referring to specifically, but my guess and my judgment is that in talking about a six to eight percent that would have to be a nominal rate, it would have to include some component of the inflation.

THE SPECIAL MASTER: These were real world figures as of four years ago in the construction --

THE WITNESS: Oh, they may very well be real in the sense that's what you must pay in dollars for

dornbusch-cross-merrill

Frontier Reporting Service

23

24

25

the loans.

THE SPECIAL MASTER: That's right.

THE WITNESS: But what I'm trying to explain is
the amount which you must pay in interest has an
inflation component because when you make the loan
and you seek to have those dollars repaid, you must
expect or anticipate the fact that the dollars that
are going to be paid back to you are going to be
worth less in the future than they are today. I think
that just basically is the principal of inflation.

THE WITNESS: If I said, "Which would you rather have, inflated dollars, dollars that are worthless because they will only buy --" Let me put it this way. Suppose you knew it cost you \$1,000.00 to buy some good today, and the value of the dollar is going to decrease into the future and it would cost you money, many more dollars to buy that in the future. You could see that you would be dealing with inflated dollars, the same thing as in Brazil.

THE SPECIAL MASTER: Yes, but

THE WITNESS: Money you take home today is worthless tomorrow.

THE SPECIAL MASTER: But a project of this kind carries with us the advantage that the product of the project will also be selling for higher prices and commanding more of those cheaper dollars than it does today.

THE WITNESS: That's right. Now, if you were to sell those products and if you were to account for inflation into the future and you did that for cost, as well, then the proper discount rate would be just the rate you are talking about, the inflated discount rate. It would be the higher rate, but you would come up with the same answer.

If you had dollars that inflated into the future, and suppose I projected my returns for alfalfa and barley to

I projected the costs for my farm equipment and all of those things also to inflate into the future.

THE SPECIAL MASTER: But you did not do that, you analyzed them on a hundred year basis. Is that right?

THE WITNESS: Well, yes, but suppose the future returns in the future costs all the way out to one hundred years were to inflate into the future as you might reasonably expect, then the proper discount rate would be the inflated rate, the higher rate.

(By Mr. Merrill) Mr. Dornbusch, in your discount rate memorandum, Exhibit C-275, you cite an editorial by Mr. Paul W. McCracken, which appears in the November 13th, 1980 issue of the Wall Street Journal, is that correct?

THE SPECIAL MASTER: I think I see. Thank you.

November 13th, 1980, that is correct.

The state of the s

- Q I hand you what has been marked for identification as Exhibit ED-24. Would you please identify that document?
- A Yes. This appears to be the article written by Mr. McCracken called, "Auguries for Economic Policies".
- In looking at that exhibit, let me caution you that there is some overlap between the first and second pages of the article.

MR. ECHOHAWK: Your Honor, just for the record, I would like to indicate this document was not presented to dornbusch - cross - merrill

Frontier Reporting Service

us last night along with the other documents. THE SPECIAL MASTER: Well, that's okay. All right. MR. MERRILL: Your Honor. I'm real sorry about that. Since Mr. Dornbusch cited it in his article, I thought he would probably be familiar with it. 5 THE SPECIAL MASTER: Off the record, please. 6 (Off the record discussion. MR. MERRILL: Your Honor, I'm sorry this exhibit turned out to be so distracting. (By Mr. Merrill) Isn't it true Mr. McCracken's article 10 is dealing with the overall economic policy of the United 11 States with regard to the true interest rate? 12 I guess that might be a summary of what he's dealing with. A. 13 Would you tell the Court how this economic policy has any-14 thing to do with taking investment capital from the private 15 sector and investing it in the public sector? 16 All right. It goes to the point of the opportunity cost 17 of capital and how you evaluate what is the cost of the 18 money that you are using to finance this project, and since 19 you are drawing capital from the private sector and putting 20 it into the public sector, you must recognize that by doing 21 so, it has an opportunity cost, that is an alternative use 22 and a return in the private sector. 23 Aren't we talking in this case about a natural resource 24 dornbusch - cross - merrill 25

about.

However, in the article is cited some information which is directly related and specific, and there are articles which deal with this issue directly and are titled accordingly. And there are other articles which also have relevant information in them which may be primarily focused somewhere else, but, nevertheless, have relevant information for us.

- Would you please direct the Court to the locations in the article in which citations appear that relate to other articles which you believe are relevant?
- A. Yes. On Page 96, which is the last page, the last paragraph in the first column, and continuing over to the top of the middle column, they refer to 4 percent which they -- excuse me -- the author says, "Why 4 percent? Because Jorgenson and Auerbach believe that is the best estimate of the average real return," real return, "on business equipment."

The repeat of "real return" is my emphasis.

- Q Did you accept that 4 percent figure or rely on this statement of it?
- A Yes.
 - Q Do you see an economic analysis in this article supporting a 4 percent figure?

25 dornbusch - cross - merrill

Frontier Reporting Service

I did not. Didn't you state to the Court yesterday that you didn't like Mr. Howe's figure of 6 percent because it was not supported by an economic analysis in the article I handed you? And I would not entirely base my paper on this statement I think it serves to bolster the opinions and re-6 sults of analyses that are cited in the paper, and I used it to refer to that. Did you review the study by Jorgenson and Auerbach? 10 No, I did not. But I reviewed the study of others who very specifi-11 cally focused on the issue of the real discount rate and 12 reviewed their methods and techniques and their conclusions. 13 14 Mr. Dornbusch, isn't it true that despite all the discus-15 sion in Exhibit ED-21 concerning options for the discount rate that the Water Resources Council has not modified in 16 any way the method by which the discount rate is deter-17 18 mined? That's correct. 19 I direct your attention to Exhibit ED--20 21 But, however, I must say that the Water Resources Council in their guidelines specifically allows for the fact that 22 changes will be made in the future to recognize the require-23 ments of making just those changes. 24 25

dornbusch - cross - merrill

			i	
	ان انت	1	Q.	Can you direct the Court's attention to any particular
ا		2		statement in the WRC guidelines that says that?
		3	A.	I can't offhand, but I believe my staff may have it. I

1	Q.	(By Mr. Merrill) 64371.
2	A.	64371. Yes. Where on the page?
3	Q.	Okay. The bottom of the second column, No. 32, "Comment."
4		Isn't it true that over the years the Water Resources
5		Council has received comments that the discount rate is
6	<u> </u>	too high?
7	A.	I don't know that for a fact.
8	Q.	Isn't it true that this document says they have received
9		such comments?
10	A.	Yes, it appears that's true.
11	Q	And isn't it true, according to this, that they have
12		received comments that the discount rate is too low?
13	A.	Yes, and what I would expect that to refer to is just the
14		thing that I was referring to is the discount rate that is
15		used is right smack in the middle or I shouldn't say
16		it's in the middle of the nominal and the real rate, and
17		it's not high enough if you use a nominal rate with in-
18		flation and it's not low enough if you use a real rate
19		without inflation.
20	Q	Isn't it true that according to this document, quote, the
21		basis for determining the discount rate has not been changed
22		for the final rule? The method of determining the discount
23		rate for evaluating projects has been confirmed by the
24		Congress in Section 80, Public Law 93.251, close quote?
25	dor	nbusch - cross - merrill

TA LATE

25

MR. ECHOHAWK: Objection, Your Honor. It's irrelevant. It doesn't matter whether Congress has affirmed what the discount rate is for these projects or not. The real question is economic feasibility for practicably irrigable acreage. Again, we are talking about two different things.

* * * * *

Frontier Reporting Service

			<u></u>
	1		THE SPECIAL MASTER: The objection is overruled.
	2	 	You may answer.
	3	A	Yes, the purpose of leaving the discount rate to be
-	4		computed according to the formula that the Government
المنت الماري عادت	1 5		does I cannot guess at. It's clear, however, that
	6		there must there is certainly either a misunderstanding
	7		of the correct economic principles to use or there is
	8		some other motivation in allowing that rate to
	9		increase at an artificial rate that I cannot speculate
احلور	10		on. I do not know. There may very well be political
	11		or social purposes to do that.
	1 2	Q	(By Mr. Merrill) But with respect to the economic
	13		theory, Congress is just plain wrong; is that what
والمراجع المراجع المرا	1 4		you are saying?
المتناطقة	3		MR. ECHOHAWK: Objection.
المين المين المين	9 - 16		THE SPECIAL MASTER: Well, everybody knows that.
	17	} }	I will sustain the objection. That's argumentative.
	18	Q	(By Mr. Merrill) Mr. Dornbusch, what will it cost to
	19		build all of the irrigation projects that have been
	2 0		proposed on the Reservation including the future lands,
	21		the Type VIII, and Type VII lands?
	22		MR. ECHOHAWK: Objection, Your Honor. It's
بند. ورا	23		irrelevant.
	24		THE SPECIAL MASTER: Oh, my.
	25		MR. MERRILL: I don't believe it is, Your Honor,

because we are talking about some capital cost. I would like to get some idea from the Witness what that is so we can look for the likely sources of funding.

THE SPECIAL MASTER: It's a massive general question, and if there's an objection, it might be that it is so general that it would have to call for a couple of days or follow on as to what specific costs how did the total get made for a particular project, or why -- but I think that Dr. Mesghinna has answered your question, frankly.

Maybe not. Maybe not. Or was it Mr. Tom Stetson?

MR. MERRILL: Inthink the cost projections in those documents are on a per acrebasis, and I believe Dr. Mesghinna did give a cost, and you asked him that.

THE SPECIAL MASTER: Yes, and I'm still in a state of shock from the cost he gave. I don't know. I think that if this Witness can answer, if he has totals by project and can bring the totals of all the projects plus the total Type VII's plus the total Type VII lands, I think I will let him answer.

MR. ECHOHAWK: But it's relevant as to consider the source of funding for the projects.

THE SPECIAL MASTER: It is irrelevant to the fact

24

25

that if there is an entitlement for water, it should be forthcoming, I will grant that, but I don't think it's relevant to his direct case and has some bearing on it and, therefore, since it does touch the matters he referred to on direct, he may answer.

MR. ECHOHAWK: I would point out further, Your Honor, as I understand it, considerations as to the source of funding, whether these projects are to be built and so forth, the financial consideration --

THE SPECIAL MASTER: That's totally --

MR. ECHOHAWK: That's what Mr. Merrill just indicated that's the reason he wanted to question is to pursue the source of funding.

THE SPECIAL MASTER: Well, no, if the next question goes into source of funding, then it's clearly irrelevant, and I will overrule that, but if this Witness knows what the total costs in 1979 dollars would come to, if the Reservation were to conclude that they want to complete all of the projects that he has testified are economically feasible, what they would come to, he may answer.

A I haven't made the calculation, Your Honor. It's a calculation that could be made, but I haven't done it.

THE SPECIAL MASTER: Okay.

dornbusch-cross-merrill

` -	· · · · · · · · · · · · · · · · · · ·	
	1	Q (By Mr. Merrill) Mr. Dornbusch, do you have even
	2	a rough idea?
	3	THE SPECIAL MASTER: That I don't think it's
	4	too late in your cross-examination to botch it up
	5	with a speculative question like that.
	6	MR. MERRILL: Are you telling me to quit while
U	7	I'm ahead, Your Honor?
الماسية الماسية		THE SPECIAL MASTER: Well, you are ahead, but
	9	when you quit is up to you.
وحالت	10	I know that we are drawing to an end because
هندا م	11	actually we could spend another week on this business
	12	of the discount figure. It is troubling a lot of
	13	people in this world besides just us today as to what
	14	money should be lended for.
	15	And now many young people go without a home
	16	because what can the savings and loan institutions
	17	of the world do? This is the most massive question
	18	in the American economy today, in my opinion.
	19	Unless you want to break, I think we can go ahead.
	20	MR. MERRILL: I think we might as well go ahead,
	21	Your Honor.

ا المائنس	મ્મ્ફ્રી મન્ટી	1		return?
	~{ ~{	2	A	That's correct.
ا انترام	~d	3	Q	So if we were to use the concept of opportunity cost
		4		in examining the source of capital for this project,
	-1	5		we would be faced with a variety of capital markets
	ं	6		from which a real discount rate might be determined,
	- CO	7		isn't that correct?
	- TO	8	A	To some degree, that's correct, and again, depending
	- 5	9		on what the purpose of the funds are, the use of
		10		the funds. There may or may not be let me put it
ت ت ن		11		this way: The complexity of the problem may be greater
-		12		or less.
4		13	Q	Mr. Dornbusch, isn't it true that there is and has
بتزي		14		been an on-going debate for many, many years amongst
مور مور		15		economists and policy makers concerning the appropriate
		16		discount rate to use for these types of projects?
سعنها			A	I think there's always disagreement. I think that
		17		
		18		the degree of the disagreement and its nature should
		19		be brought into focus when you are talking about this.
		20		Just because one or two or three or four people
المرسما		21		disagree on some principles and not on others, it's
سمرس ا سمرسا		22		very difficult to generalize. I think what we ought
-		23		to do is talk more specifically about this type of
		24		project and the sources of funds from this type of
		25	dorn	busch-cross-merrill
w jare			4	Frontier Reporting Service

3	1	project.
	2	Q Mr. Dornbusch, isn't it true according to the Water
2	3	Resource Council's own publications, that one of the
	4	bases for establishing a discount rate in the WRC
	5	Principles and Standards was to end the disagreement
3	6	amongst economists as to the appropriate discount
	7	rate and apply a uniform set of standards to federally
3	8	funded water projects in the United States?
3		
3	9	A Well, if that was their purpose, they haven't succeeded apparently. If they succeeded, they have in terms
	10	
	11	of applying this federally mandated discounted rate,
	12	they have done so in a way that is not entirely
	13	correct applying economic principles, but may be
	14	appropriate for the purposes that the Government has
ود	15	in mind. As I said before, I can't guess at those
	16	specific purposes.
	17	MR. MERRILL: Your Honor, I have no further
	18	questions on cross-examination. I would ask the
	19	Court to take a break at this time so I can organize
	20	
		my exhibits and come back and offer my cross-
	21	examination exhibits after that.
	22	THE SPECIAL MASTER: That will be fine. We thank
	23	you for that. We will take a ten-minute break.
	24	(Whereupon, a ten-minute
	25	(recess was taken. dornbusch-cross-merrill
		

	1	MR. MERRILL: Your Honor, before I begin my
	2	offer of exhibits, let me do a few housekeeping
	3	chores with respect to those exhibits which were
	4	temporarily marked for identification.
	5	Q (By Mr. Merrill) Mr. Dornbusch, I'm returning to you
	6	what was temporarily marked as Exhibit ED-54 and I'm
	7	handing you a permanently marked copy. Would you
	8	confirm for the record that those are one and the
	9	same?
	10	A They are one and the same.
	11	Q Okay. I'm now handing you ED-55. Please check that
	12 n	against the permanent marked copy I'm handing you.
	13	THE WITNESS: They are the same.
	14	Q And the last document which you kindly lent me was
	15	ED-56, which I'm returning to you now. I'm also
) 16	handing you a permanently marked copy. Are those
	17	the same?
	3	A They are the same.
	3 19	MR. MERRILL: Your Honor, I'll begining offer
	20	of exhibits used in the cross-examination of Mr.
	21	Dornbusch. With respect to each exhibit, I will
	22	identify it and state as best I can a brief description
	23	of what the exhibit is.
1	24	THE SPECIAL MASTER: Thank you for that. I

appreciate that, a brief description, but -MR. MERRILL: Descriptive.

THE SPECIAL MASTER: Adequate, yeah.

MR. MERRILL: I will do the best I can, Your Honor. After the description of each exhibit I will state the purpose for which I'm offering it into evidence. The first exhibit is Exhibit ED-100. It is the oversized graph called "Alleged benefit cost ratio of U.S. future irrigation projects." I'm offering that exhibit for illustrative purposes.

A part of the first of the firs

THE SPECIAL MASTER: Go ahead with your listing.

I beg your pardon.

MR. MERRILL: I just didn't want to get ahead of you.

THE SPECIAL MASTER: No, go ahead with your listing. I'm identifying the ED is "Economic, Dornbusch".

MR. MERRILL: That's correct, Your Honor.

THE SPECIAL MASTER: And begin with 100.

MR. MERRILL: At least that is what I had in mind.

THE SPECIAL MASTER: All right.

MR. MERRILL: Exhibits ED-12, 13 and 14 I believe have already been admitted into evidence. They are copies of Mr. Dornbusch's crop budgets and feasibility analyses at five, six and seven and one-eighths percent

fran

respectively. And on the first day of Mr. Dornbusch's direct testimony, the Court admitted those documents into evidence.

The next exhibit is ED-8.

THE SPECIAL MASTER: ED what number?

MR. MERRILL: ED-8, Your Honor.

THE SPECIAL MASTER: All right.

MR. MERRILL: That is a report by Mr. Agee, "Costs of producing crops in the Riverton area." I'm offering that document for purposes of cross-examination and impeachment.

MR. ECHOHAWK: What?

MR. MERRILL: Cross-examination and impeachment.

The next exhibit is ED-30. That is a May, 1981 report issued by the Wyoming Crop and Livestock Reporting Service. I'm offering that exhibit for purposes of cross-examination and impeachment.

The next document is Wyoming Exhibit ED-24,

I believe, Your Honor. Let me check. It is a 19 -
an excerpt from the 1980 issue of Wyoming Agricultural

Statistics.

THE SPECIAL MASTER: Is that ED-24 or ED-25?

MR. MERRILL: ED-24, Your Honor.

MR. ECHOHAWK: What is it, again?

MR. MERRILL: An excerpt of the 1980 edition of

	,

the Wyoming Agricultural Statistics. I offer that document for purposes of cross-examination and impeachment.

THE SPECIAL MASTER: All right.

MR. MERRILL; The next exhibit is ED-16, which I have called on my sheet "Dornbusch notes concerning farmer interviews." I offer that document for illustrative purposes.

The next document is ED-17. That document is the BIA Wind River Completion Report.

MR. CLEAR: Just the two pages of it, though?

MR. MERRILL: Yes, I'm sorry, it's an excerpt.

THE SPECIAL MASTER: I want to call your attention that there has been offered and identified an Exhibit ED-29, the Wyoming Agricultural Statistics compiled by the Crop and Livestock Reporting Service that I believe you referred to ED-24.

MR. MERRILL: You're right, Your Honor, it's my mistake.

THE SPECIAL MASTER: ED-24 is called "Street journal article on how the democrats should -- whoops, pardon me -- "Auguries for aconomic solicy."

MR. MERRILL: Your Honor, I'm sorry, I have 4s that look like 9s on this sheet. You are right. I will amend the offer to make the 1980 Wyoming

Agricultural Statistics excerpt ED-29, and I offer that document for cross-examination and impeachment. I don't know if I stated the purpose of the offer of ED-17, which is an excerpt from the BIA Completion Report. I offer that for purposes of cross-examination and impeachment.

THE SPECIAL MASTER: All right.

MR. MERRILL: The next document is ED-15. It is an HKM report entitled, "Criteria For Selection of Project Study Areas." I would offer that document for purposes of cross-examination and impeachment.

The next document is Exhibit C-278-A.

THE SPECIAL MASTER: C-278-A?

MR. MERRILL: That's correct, Your Honor. That is a rough copy of Mr. Dornbusch's report which, as you will recall, was served on the State of Wyoming on May 15, 1981. I offer that document — it's in rough form, Your Honor, handwritten notes and so forth. The purpose of that offer is only to illustrate the information that was served on the State by the United States on May 15th.

THE SPECIAL MASTER: All right.

MR. MERRILL: The next document is Wyoming Exhibit ED-11. I will withdraw that document, although I believe it remains a part of the record,

and offer in its place Exhibit ED-11-A, which I passed out today. That document is the Federal Register notice concerning the WRC discount rate at seven and three-eighths percent.

MR. ECHOHAWK: Do you have a date on that Federal Register?

MR. ROGERS: October 22, 1980.

MR. MERRILL: Thank you, Mr. Rogers.

THE SPECIAL MASTER: 11-22-80?

MR. ROGERS: October 22, 1980.

THE SPECIAL MASTER: Thank you.

MR. MERRILL: I would offer that document for purposes of cross-examination and impeachment.

The next exhibit is ED-26, excerpt from Howe, "Monograph on Natural Resource Economics." I offer that also for cross-examination and impeachment.

The next exhibit is ED-25, Excerpt from Howe entitled, "Benefit Cost Studies for Water Systems."

I offer that document for purposes of cross-examination and impeachment.

The next is Exhibit ED-21. It is a WRC publication entitled, "Options for the Discount Rate," dated 1975.

It is offered for purposes of cross-examination and impeachment.

MR. MERRILL: (Continuing) The next exhibit is
ED-22. It is an excerpt from a book entitled, Primer for
Policy Analysis, by Stokey and Zeckhauser. I offer it
for purposes of cross-examination and impeachment.

The next exhibit is ED-51, which is a document obtained from Mr. Dornbusch during his cross-examination, and I have entitled it, "BIA Table Concerning Unemployment Rates on Indian Reservations". I offer that document for illustrative purposes.

The next document is Exhibit ED-6.

THE SPECIAL MASTER: ED what?

MR. MERRILL: ED-6.

THE SPECIAL MASTER: Thank you.

MR. MERRILL: That document is Part 9 of the Water

Resources Council Principles and Standards dated 1979.

I offer it for purposes of cross-examination and impeachment.

The next document is ED-52. These are Mr. Dornbusch's notes concerning the potential for Indian employment on the Wind River Indian Reservation. I offer that document for illustrative purposes.

The next document has no exhibit number, but it is a copy of an excerpt of the second deposition taken of Mr. Dornbusch on January 12 and 13, 1981.

I don't believe it's proper to offer part of a

deposition into evidence, and I will withdraw the copy
of that document and ask the Court and the Court's
assistant to return those copies to me.
THE SPECIAL MASTER: I am hereby handing you the two
copies I have.
MR. MERRILL: Thank you, Your Honor.
(Documents handed to Mr. Merrill
(by The Special Master.
THE SPECIAL MASTER: But you are offering neither into
evidence?
MR. MERRILL: No, Your Honor. I believe the state of
the law is when a witness reads from his own deposition
during the trial, the statements in the deposition become
a part of the record of the proceedings.
THE SPECIAL MASTER: Very well.
MR. MERRILL: The next exhibit is ED-3. That is Part
2 of the <u>Water Resources Council Principles and Standards</u>
dated 1980. I would offer that document for purposes of
cross-examination and impeachment.
The next exhibit, Your Honor, is ED-53, which is
this over-sized chart here (indicating).
THE SPECIAL MASTER: Sketch?
MR. MERRILL: Sketch, Dornbusch sketch concerning
benefit-cost analysis about the A's and B's. I offer that
document for illustrative purposes.

1	THE SPECIAL MASTER: Off the record, please.
2	(Off the record discussion.
3	THE SPECIAL MASTER: Back on the record.
4	MR. MERRILL: The next exhibit is ED-54, and I
5	called this document, "Stetson Costs Concerning Type VIII
6	Lands."
7	THE SPECIAL MASTER: Stetson irrigation system costs
8	or just costs?
9	MR. MERRILL: It has both investment costs and operation
10	costs, Your Honor.
11	THE SPECIAL MASTER: All right. Stetson Cost Type VIII
12	Lands.
13	MR. MERRILL: I offer that document for illustrative
14	purposes.
15	Counsel for the United States advises that that docu-
16	ment is already in evidence. I'm offering it now because
17	I wasn't here during a good part of Mr. Stetson's testimony,
18	and I want to make sure that it is in the record.
19	If it's duplicative, I apologize to the Master.
20	The next document, Your Honor, is ED-55, and I'm not
21	sure exactly how to describe this. I'll take a crack at
22	it. Maybe Mr. Dornbusch can do a better job.
23	I would call it a scheduling of construction costs
24	for the future project areas.
25	Does that sound reasonable?

THE WITNESS: Yes, I think that's right. MR. MERRILL: I would offer that document for illustrative purposes. 3 The next document is ED-56. That is a table by 4 Mr. Dornbusch showing the skilled and unskilled labor 5 requirements for the systems operation and maintenance of 6 the five future areas. I offer that document for illustrative purposes. 8 The next document, Your Honor, is Exhibit ED-28. It 9 is an excerpt from the book entitled, Public Investment, 10 the Rate of Return and Optimal Fiscal Policy, by Arrow and 11 Kurz. I would offer that for purposes of cross-examination 12 and impeachment. 13 The next document is ED-24. That is the McCracken 14 article, November 13, 1980, Wall Street Journal, and I would 15 note that that also includes Mr. Modding Carter's article. 16 THE SPECIAL MASTER: Thank you. 17 MR. MERRILL: I offer that for purposes of cross-18 examination and impeachment with respect to the McCracken 19 report. 20 THE SPECIAL MASTER: We refer to the McCracken article 21 as a voice in the voice in the wilderness these days. 22 What's the purpose on that? 23 MR. MERRILL: For cross-examination and impeachment. 24 And the last exhibit, Your Honor, is ED-23, and that 25

is an excerpt from the March 9, 1981, issue of Fortune Magazine, which was cited by Mr. Dornbusch, and I offer that document for purposes of cross-examination and impeachment.

MR. ECHOHAWK: That's all?

MR. MERRILL: That's all of the exhibits I'm offering.

THE SPECIAL MASTER: I have referred to ED-7 a time or two and been exposed to it, and you should know that if it's not to be offered, I will try to strike from my mind the references to it a time or two.

MR. MERRILL: Right, Your Honor. We left it off of our exhibit log sheet. I apologize. ED-7 is a copy of the 1980 Water Resources Council Reference Handbook, and I offer that document for purposes of cross-examination and impeachment.

THE SPECIAL MASTER: And I have looked at the ED-3, but not of any importance. That's the Federal Register for September 29.

MR. MERRILL: Yes, I believe I offered that.

MR. ROGERS: I have that on the list, Your Honor.

THE SPECIAL MASTER: I beg your pardon. You sure did. I'm sorry.

Let me just take a minute to make sure I'm not working with material that won't be in evidence. Would you just be kind enough to let me know if these are in as I give

1	the number? 28.
2	MR. ROGERS: It's on the list.
3	THE SPECIAL MASTER: 23?
4	MR. McDANIEL: Yes.
5	THE SPECIAL MASTER: 7?
6	MR. McDANIEL: Yes.
7	THE SPECIAL MASTER: 22?
8	MR. MERRILL: Yes.
9	THE SPECIAL MASTER: 26, Howe?
10	MR. ROGERS: Yes.
11	THE SPECIAL MASTER: 25?
12	MR. MERRILL: Yes.
13	THE SPECIAL MASTER: I'll go over these quickly.
14	21?
15	MR. MERRILL: Yes.
16	THE SPECIAL MASTER: 11-A, I know that's in.
17	MR. MERRILL: Yes.
18	THE SPECIAL MASTER: ED-52?
19	MR. ROGERS: Yes.
20	THE SPECIAL MASTER: 51?
21	MR. ROGERS: Yes.

25

release. The objection is there is absolutely no foundation or authentication.

MR. MERRILL: The Witness identified it, Your Honor.

MR. ECHOHAWK: Your Honor, he identified what it purported to be.

THE SPECIAL MASTER: Not necessary. The next one?

MR. ECHOHAWK: The next objection is to ED-15,

which is what purports to be a letter from HKM Associates

and a report entitled, "Criteria for Selection of

Project Study Areas, Wind River Reservation."

THE SPECIAL MASTER: And the basis for the objection?

MR. ECHOHAWK: No foundation or authentication.

MR. ROGERS: Your Honor, might I state that instead of getting up each time, the Tribes join in the objection of these exhibits.

THE SPECIAL MASTER: All right.

MR. ROGERS: Unless we state otherwise.

THE SPECIAL MASTER: Very well. It will be noted.

MR. ECHOHAWK: The next objection is to Exhibit ED-28, which is the excerpt from a book or article entitled, "Public Investment, the Rate of Return and Optimal Fiscal Policy," by Arrow and Kurz. The United States objects, it is merely an excerpt, and if Wyoming will produce the books, we can mark them and

Frontier Reporting Service

put them into evidence right now. With that agreement from Wyoming, we will have no objection, but it is just taking one single page out of context, and we wish the whole book to be entered. The next objection goes to an article by Charles W. Howe entitled, "Natural Resource Economic, Issues, Analysis and Policy," which is marked as ED-26, same objection. Twenty-six or -- oh, I see, THE SPECIAL MASTER: you are going to object to 26 on the same basis? MR. ECHOHAWK: Twenty-six, same basis, taken out of context. The United States would have no objection if we could have the entire book marked into evidence.

6

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

We have a similar objection to ED-25, which is an article I believe entitled, "Benefit-Cost Analysis for Water System Planning," by Charles W. Howe. Same thing, one page taken out of context. No objection if we would have the whole information -- excuse me, the whole item marked and moved into evidence. There may be a small amount of voir dire on both Howe articles, but let me hold those off for a second.

THE SPECIAL MASTER: I have a problem -- well, go ahead with your objections.

MR. ECHOHAWK: The next objection goes to ED-22, which is an excerpt out of either a book or an article

18

19

20

21

22

23

24

25

entitled, "A Primer for Policy Analysis," by Stokey and Zeckhauser. Same objection, one page taken out of context. The United States would remove its objection if the entire document can be marked and moved into evidence.

The United States' next objection goes to what has been marked as Exhibit C-278-A, which is a hand-written -- the handwritten information I turned over to Mr. Merrill when it became available. It serves absolutely no probative value. The exhibit C-278 is in evidence and this is merely duplicative and adds absolutely nothing.

The next objection is to ED-17, which purports to be the two pages out of a document, "Plan for Completion of the Wind River Irrigation Project," June, 1968.

Again, it's two pages taken out of context. If the entire document could be marked and moved into evidence, we would have no objection. I believe that one is offered for purposes of impeachment. As we have argued before, that argument comes during the briefs. If you want to offer it for the truth of its contents or illustrative purposes or whatever, that is a different story.

Exhibit ED-30, which is the Wyoming Crop and Livestock Reporting Service, I'm not clear from that

Frontier Reporting Service

J

particular document whether that is the entire portion of the document or whether, again, that is an excerpt. Do you know that, Mr. Merrill?

MR. MERRILL: To the best of my knowledge, Your
Honor, it is an entire -- it is simply a news release
that is issued on the front and back, and both the
front and back of the copy were made part of the exhibit.
It is issued monthly.

MR. ECHOHAWK: If that is the case, it is a news release, Your Honor, we object for authenticity.

The next objection goes to ED-29, which -a document marked as "Wyoming Agricultural Statistics,"
compiled by Wyoming Crop and Livestock Reporting
Service. It is a two-page document. The second page
is listed as Page 90. Again, it is a document taken
out of context. We object on two grounds: First,
it's taken out of context and we wish the rest of the
document be marked; and the authenticity basis.

The next objection goes to ED-100, which is based on foundation. If Wyoming wishes to bring the person in who prepared the graph, the person can be cross-examined, voir dired on that particular exhibit as to the preparation of it at that time and the United States could consider an objection at that time, Your Honor. We believe that it is entirely premature, no

foundation has been laid for that document.

Ę

MR. MERRILL: Your Honor, the foundation for that document was laid by Mr. Dornbusch. He testified it was a pretty good plot of benefit-cost ratios for projects.

MR. ECHOHAWK: Improper foundation.

, THE SPECIAL MASTER: Any other objections on the voir dire?

MR. ECHOHAWK: Your Honor, for each document where there was an impeachment purpose listed, and I think that goes to ED-8, ED-30, ED-29, ED-17, Ed-15, ED-11-A, ED-26, ED-25, ED-21, ED-22, ED-6, ED-3, ED-28, ED-24, ED-23, ED-7 and ED-10, same objection applies that the question of whether or not those documents impeach Mr. Dornbusch is left for the lawyers to argue in briefs, and it is improper to offer those for those purposes. If he wished to offer them for the truth of their contents or for illustrative purposes, that is a different story.

For the documents -- the United States has a further objection to the documents Exhibit C.-- wait a minute, excuse me, Exhibit ED-51, which are BIA tables, unemployment tables used by Mr. Dornbusch. Those were offered for illustrative purposes. Those -- we would remove our objection if they were offered to

(307) 237-1493

	
1	which is a table prepared relied upon by Mr. Dornbusch
2	showing the skilled and unskilled labor force systems
3	regarding the operation, maintenance and repair for
4	the future years. We would offer those for the future
5	excuse me, for the facts and data relied upon by Mr.
6	Dornbusch.
7	THE SPECIAL MASTER: You would enlarge the purpose
8	of their offer?
9	MR. ECHOHAWK: That's correct, Your Honor.
10	THE SPECIAL MASTER: And that number again, was
11	55?
12	MR. ECHOHAWK: Fifty-six.
13	THE SPECIAL MASTER: Fifty-six, thank you.
14	MR. ECHOHAWK: May I have one minute, Your Honor?
15	(Off the record discussion.
16	
17	
18	
19

24	
25	

MR. ROGERS: Your Honor, I think just one point.

I don't have a reference to it in front of me, but the

ED-54 which was offered by Mr. Merrill for illustrative

purposes is the Stetson Type VIII Land Costs document.

THE SPECIAL MASTER: Right.

MR. ROGERS: Which has already been admitted in evidence, I think, but I'm not sure, but that must have been admitted for the truth of its contents, and that would be another basis for changing its purpose here.

THE SPECIAL MASTER: All right. I'm ready to rule on this with some misgivings as to how I'm going to rule regarding the objections.

First, as to an excerpt, normally I would categorically recognize that objection and sustain it because the practice all too often results in lifting a sentence out of context and changing or altering the meaning of a particular paragraph, let alone of the article or whatever he's done.

It's been a practice much abused in journalism techiques and in the law up until the last ten years or so, and the new journalism has made it look pretty innocent as compared to our new treatment, but in this case I'm going to overrule these objections because I believe that the subject matter of these excerpts, be they a page or two pages out of a book or a page out of an article, deal with theoretical subject matter anyway, and this is a

highly complex matter of what is a valid and appropriate
discount rate for a project as unique and unprecedented
as this one.

This is not a Congressional appropriation. This
is not a Congressional authorization. This is a program

This is not a Congressional appropriation. This is not a Congressional authorization. This is a program where water is readily available and has been appropriated. It has all sorts of overtones that make it different that the ordinary thing, and I think that having to require the State to come up with the full publication in some of these matters of a book of two or three hundred pages because the excerpt in evidence is only two or three pages therefrom would be unduly burdensome and, therefore, I rule this way.

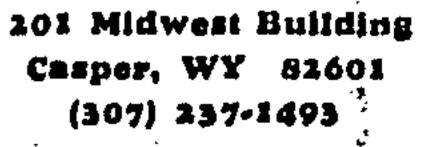

MR. ECHOHAWK: I believe those documents are in the courtroom, and I have seen on several occasions --

THE SPECIAL MASTER: I have seen one or two in the courtroom. They are books, I think, and textbooks, most of them.

MR. ECHOHAWK: Yes, Your Honor. It's customary during trial that once those documents are used that the books are marked and put in.

MR. ROGERS: Your Honor, furthermore, if I may say, with the fact that it is a theoretical subject, there may indeed be content on other pages not presented that could be brought to your attention, and they should be part of

Frontier Reporting Service

6

25

the record in this case and be brought to your attention in the proposed findings, all the more important because they are theoretical subjects, and it is not a burdensome cost, even if the State had to buy these books to put them into the record to do so.

The record also reflects that we made MR. MERRILL: them available overnight.

If they felt that we had taken material out of context or there is other material within those documents that should be presented, they are welcome to do so.

THE SPECIAL MASTER: I was going to say would you make the books available and given them to Mr. Echohawk, whatever ones you have available as textbooks, and let him scour through them for whatever he may want to use in rebuttal or at least give him a list of what they are and what libraries they are from, something like that? Give them a bibliography of them.

MR. MERRILL: We will make the books themselves available as we did last night.

THE SPECIAL MASTER: That's all Mr. Echohawk asks, in effect.

MR. ROGERS: We would like more than that, Your Honor. We want them in the record so we may refer to them in proposed findings and argument later.

THE SPECIAL MASTER: Why don't you take advantage

of my offer now, the list and the books and the State will offer to you -- if you find material in them that you want to use and you develop your own case. I don't think they have a duty to develop your case.

MR. ECHOHAWK: It's not to develop our case. It is when a document is produced, they showed him one page out of a book and cross-examined him on that.

At that point, Your Honor, we are entitled to have the entire book put into evidence.

THE SPECIAL MASTER: I know books that are published on this matter where that would not be.

MR. ECHOHAWK: That's the risk that Wyoming runs when they used those books, Your Honor, and it's been customary practice in trial when it happens --

THE SPECIAL MASTER: I don't know how to rule on that. I will take that under advisement, and my assistant, Mr. McDaniel, will come up with a proper ruling tomorrow, but I would like to think my first ruling on this is appropriate.

MR. ECHOHAWK: So the ruling is reserved on those then?

THE SPECIAL MASTER: I will reserve the ruling on whether or not the State has to produce the entire books and put them in evidence. I believe my ruling is to give you a list and you put them in evidence which might be

more appropriate.

MR. ECHOHAWK: If they can give me the books, I can put the stickers on them.

MR. MERRILL: They came from the professional library of the State's experts.

MR. ECHOHAWK: That's the risk they run. It has happened time and time again.

THE SPECIAL MASTER: Well, anybody who comes and brings his work papers with him knows what that risk is, to end up with thousands of sheets being copied.

MR. MERRILL: The witness' own work papers were returned to him along with a marked copy so that he has not only his original but an extra copy. This is a different situation. We'll make the books available. If they want to put them in --

THE SPECIAL MASTER: I will order when this case is completed, and the records go to some tomb or some law school that the books will be returned to their proper owner, if xeroxes be made of appropriate pages that were referred to in the record.

I think we are making a mountain out of a mole hill.

I don't think this was at all that important.

MR. ECHOHAWK: It is, Your Honor.

THE SPECIAL MASTER: But apparently the United States thinks it is, Mr. Merrill.

MR. MERRILL: Your Monor, our expert is going to get the books right now. We will make them available again. They can get their own copies, and put them in on redirect or in the Tribes' case in chief.

THE SPECIAL MASTER: Let's go on to the next item.

MR. ROGERS: That's not what we are asking.

MR. ECHOHANK: That's not what we are asking. We are asking that their books, that they use those and put them in. It's a burden they bear when they bring those in and cross-examine witnesses on those points.

MR. MERRILL: Your Honor, if the United States thinks it's that important a point, maybe we should put in briefs on the matter before you rule.

THE SPECIAL MASTER: Well, I hate to add to your work as well as my own work by calling for briefs on this evidentiary matter. I suspect a few hours of research by my staff can give me an answer.

I know you want a ruling now -- I will give you a ruling now, but you won't like it.

MR. ECHOHAWK: If you want to look into that matter, and we can address it again on June 2 when we return --

THE SPECIAL MASTER: Let's do that. Let's reserve that point, and I will address it on June the 2nd, and I will have some authority for my conclusion, and I would welcome a page or two of your authority if you think

that once they xerox a page or two of a publication or a periodical, it is at their risk in offering it that the entire document must be produced.

That may be something that is true on something that is cohesive and something that is up to 20,000 words, but a short piece of literature, a novelette,— I remember a lot of — it is certainly true on smaller articles where there may be distortions by taking something out of context, but this is a work on theory, and if there is another reference within those publications to offset that which they have taken, I think that would be your duty to find that and put it into evidence without going into the entire publication.

MR. ECHOHAWK: The question is who bears the burden, Your Honor, and Wyoming has brought those in, and I think it is only appropriate that we use their books and put them in. I think Rule 612 allows for such. We will look into that further, Your Honor.

THE SPECIAL MASTER: Okay. I'll reserve a ruling on all of the exhibits to which that objection was made.

I will permit all those exhibits as follows: 52, 54, 55, and 56, to be admitted within the large purposes as requested by the United States, and I will deny none of these exhibits from being admitted into evidence and those to come where objections were not made, the same are

hereby admitted into evidence.

 R_{ij}

Those on which objections were made but other than being excerpts are hereby admitted into evidence, and those exhibits to which exceptions were taken because of being excerpts and the balance of the publication not before us, we will have a ruling reserved as to their admissibility until June 2 when we next meet.

Okay. Mr. Dornbusch, are you ready -- is there further redirect?

MR. ROGERS: Could I get a clarification? You have rejected our objection to the admission of exhibits on the basis of cross-examination and impeachment?

THE SPECIAL MASTER: That's correct. The impeachment concept is up to me to determine whether it has any evidentiary value of impeachment of the purport of his testimony, and it's in evidence, and it can be cited by them and cited by you in closing arguments.

MR. ROGERS: Thank you.

MR. ECHOHAWK: At this time it's now 4:30 and the United States does have redirect. We would ask, Your Honor, that redirect be postponed until we return June 2. The redirect could appear to be quite lengthy, and I'm sure it's going to generate the same amount of recross.

THE SPECIAL MASTER: Oh, heavens. Don't say that.

MR. ECHOHAWK: I anticipate Mr. Merrill. With the

Frontier Reporting Service

1	Court's permission, Your Honor, I would suggest we
2	adjourn and return June 2.
3	THE SPECIAL MASTER: Yes, that is agreeable, and
4	it will be so ordered.
5	The redirect of Mr. David Dornbusch will take place,
6	our first order of business on June the 2nd when we
7	reconvene.
8	I would like to think that if we find this going into
9	long sessions like direct was, that I will be constrained
10	to put some time limitations on both redirect and on
11	recross. I hope they are not more than a day of each.
12	MR. ECHOHAWK: Okay, Your Honor. I understand.
13	THE SPECIAL MASTER: All right. Thank you all very,
14	very much.
15	I hope you understand that it is a worry and a
16	difficult proceedings as all of you know.
17	Mr. Radosevich, you have a pleading before us for
18	disposition. Would you bring it forth and I'll take a
19	few minutes now to put a few things in the record to give
20	you some reasons why we can't proceed with it right now
21	on its merit?
22	MR. RADOSEVICH: I provided you with two copies and,
23	unfortunately, I don't have another copy with me now.
24	THE SPECIAL MASTER: Let me see if I have it here.
25	I probably have it in the office.

Does anybody have a copy of that request for publication for the reservation papers?

MR. ROGERS: Yes, Your Honor.

MR. ROGERS: I want to be heard, Your Honor, but I have to confess that I have not had time to properly prepare for this, and it's an important matter.

THE SPECIAL MASTER: This matter will also be set over to be heard probably before the redirect on Tuesday, November 2 -- Tuesday, June the 2nd.

I want to give you now, however, Mr. Radosevich, some of the things that gave me trouble in what you are asking me to do.

MR. RADOSEVICH: Yes, Your Honor.

THE SPECIAL MASTER: I am not sure that I have a right to say that, "The United States government, through its attorneys, represents all trust-held lands and has filed claims for water on those lands to the extent determined by the government as essential to protect the trust properties."

I cannot in all honesty say that.

All I can say is there has been a suit filed in which the burden before this Court is a general mainstream adjudication of the rights to use water in this entire stream by everyone concerned, Indians, non-Indians, and so on.

Now, if the United States wants to make a document of that kind and agree to it, that's one thing.

Next was that the Tribes, "... have retained counsel to represent the Tribes as political entities and have filed claims concurrent with or in addition to claims filed by the federal government on all lands held by the Tribe or members of the two Tribes."

I don't know that that's a fact, and if it isn't, then the Tribes should so state.

MR. ROGERS: There's language in that that is in error in law, and we have also -- the Tribes previously did place a public notice in the newspapers on the location of the reservation advising about the extent of their representation of the Tribes which I will produce at the time of --

25

THE SPECIAL MASTER: The point which gives me the most difficulty, though, is this one, which is the fact that the State of Wyoming does not represent individual water right holders in this general adjudication. The State of Wyoming has in some ways over the past three years, and even before I got in this case, rather held itself as being helpful to the holders of water rights, and to one point of sending around to the various meetings of the Wyoming Farm Bureau in the Big Horn Basin an agent - an official of the Wyoming Attorney General's office advising how to fill out a United States deposition and how not to, which caused great tribulation around here. So I don't know now if I have a right to say they don't represent them. The State is maintaining that all adjudicated water rights of record of the permitees are in good standing and should not be adversely affected by any claims for the right to use water other than the State now. That is a conclusion which I cannot really in all honesty concur because if there is any kind of an adjudication made of any kind of reserved rights for the Reservation, there will be a damage to an adjudicated water right down-It may not be very serious if you hold a stream. 1904 or 1902 down around Worland, I don't think you are going to worry too much. But you might have some

bad years where you are going to get cut off where you wouldn't otherwise. If you hold a 1920, I wouldn't say much that, you know, it's going to do you real harm.

So, to the extent under the law of prior appropriation that there will be a setback, that's true.

MR. RADOSEVICH: Your Honor, I can appreciate your concern about the way we state who represents who, and I think this is precisely the problem, because the issue that came up, if you recall at that time, was are the individual Indian and non-Indian owners of fee simple land and allottees being represented by any other counsel for the Federal Government, the Tribes or the State Government.

At that time we had -- I raised the question simply because we get a number of inquiries, and since I represent the City of Lander and many of the fee simple landowners that live in that area, and they presume either they are being represented or their interests are being represented by the Federal Government or by the City of Lander or the State Government.

At that time the counsel for the Federal Government, they couldn't quite decide who they represented, and this is a statement they gave me. Now, I realize the language of this may not be precisely correct, but the State, I have checked with them, and it is their

position. I think it is up to counsel for the Tribes and counsel for the U.S. Government to determine who they do represent. But the fact of the matter still remains, there are many non-Indian landholders of fee simple land, and if their rights are not included and they are under the assumption they are, and by the inquiries we have had they presume they are, and, in fact, if their rights are not even coming up under the Reservation Doctrine, then they certainly should know.

THE SPECIAL MASTER: Mr. Radosevich, If anybody has the permits anywhere and they think they are going to be adjudicated here, they are in error. You know, another one too --

MR. RADOSEVICH: Pardon, Your Honor is absolutely correct.

THE SPECIAL MASTER: So permits are not going to

be adjudicated here. We will be confirming I hope, to some

degree -- we will be confirming, pass a judgment on, the

validity of our adjudicated certificates of appropriation.

We will not be touching the permits. The people, I guess

should know that sooner or later, but I don't know what

good it is to put a notice out to that now. Then again,

I keep running into this periodically, not too much lately,

but, "Well, hello, Teno, how are you? I see you are still

working, my lawyer sent me a statement for another bunch

of money, so I guess you are doing something." This is what

I get, not up in your area, but north of you.

MR. RADOSEVICH: I don't send out any bills, Your Honor.

THE SPECIAL MASTER: I don't know what we get into when we get to a document like this. I don't like to generate expenses that may not be of my --

MR. RADOSEVICH: First of all, I would like to state it is not my purpose of raising this in order to generate

any business.

THE SPECIAL MASTER: I know that.

MR. RADOSEVICH: Most of my business is not in the United States, anyway.

THE SPECIAL MASTER: I did not intend it that way.

MR. RADOSEVICH: But I think the problem is we are talking about very material rights that may be affected, and if the people are under the assumption, particularly non-Indian fee simple landowners, that their rights are going to particularly date back to the date of the reservation or there is some question. I think it is a very valid concern, and they have expressed it in the sense of inquiring who is representing who.

statement, for example, at the end of the notice, says,
"Assertion of individual interests to water rights on fee
simple held lands in addition to any above representations,
must be made by the individuals or their representatives."

I'm not certain that an owner of some water rights has to
certify anything. He may have an adjudicated certificate
of appropriation -- in the Midvale District, and he will
be -- his rights are not going to be hurt by me one iota.
We are not calling him in and saying, "You know, have you
not used it in five years, or we will send a letter to
George Christopulos and begin a proceeding against you for

Frontier Reporting Service

termination of your interests," I'm not doing that to anybody. The worst that can happen to him is on the granting of this federal water right, his certificated right to use water may not be as thoroughly useful over the decades to come, may not have permitted an appropriation date. It may mean he has less water some years than other times. That is the worst that can happen.

MR. RADOSEVICH: Or no water.

THE SPECIAL MASTER: I don't know about no water because they really have no water after 1921 right now. Worland two years ago, all the years were cut off, '21 or later, so they got no water now, so it can't hurt them very much, you see.

MR. RADOSEVICH: Your Honor, I realize there is going to be quite a bit of discussion, and I've already discovered that, in fact, it's very difficult at least for two of the parties in this lawsuit to decide who they are representing because, as I said, it's going to take some very complex language. If it's difficult for the attorneys who are representing not to know who their clients are, I think it's more difficult for the people who potentially thought they are clients --

MR. ROGERS: Your Honor, I know who my clients are.

MR. MEMBRINO: So does the United States.

MR. ROGERS: Your Honor, just for the record --

THE SPECIAL MASTER: I am not opposed to trying to do something to be of help to you, but it has to be stated in a real, real way that doesn't shake up a lot of people or get a lot of adverse public concern for this litigation that it already has.

MR. RADOSEVICH: Your Honor, I thoroughly agree with you, and I have requested of counsel to examine it because I just put a draft forward, and we can discuss the matter on June 5th or --

THE SPECIAL MASTER: This is not being -- I'm not saying no, but this takes some studying. We are going up, and we are going to look at some reservation matters as a group in a week or so -- when are we going up, the 8th?

MR. ROGERS: The 10th, Your Honor.

THE SPECIAL MASTER: That week of June 8th we are going up, and I believe that we can fashion some responsible notice at that time, that perhaps a notice of some kind for those living on fee land in the reservation area would be appropriate, but I don't know.

MR. RADOSEVICH: Well, we can work on this, Your Honor.

I'm willing to work with whoever else to fashion it.

THE SPECIAL MASTER: Do you wish to be heard on this, Mr. Merrill?

MR. MERRILL: No, Your Honor, not at this time.

THE SPECIAL MASTER: Does anyone else wish to be
